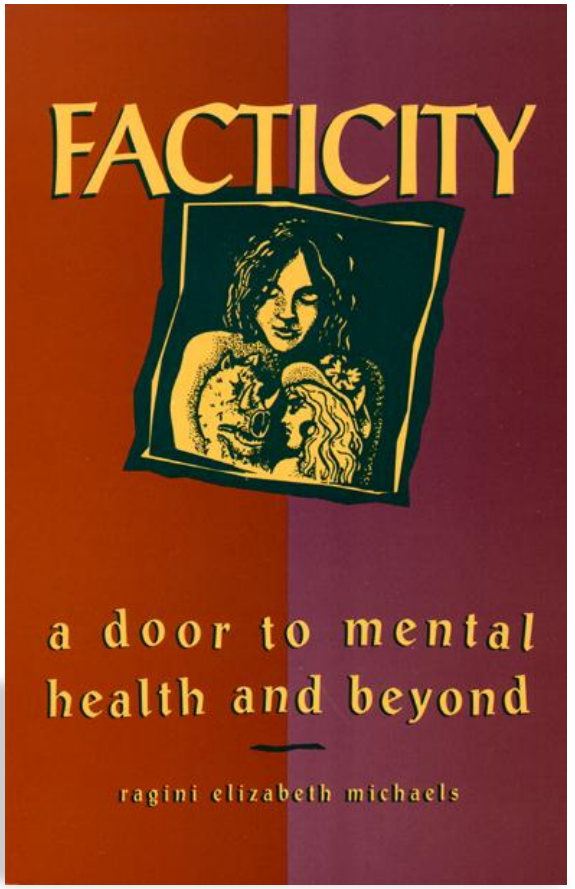
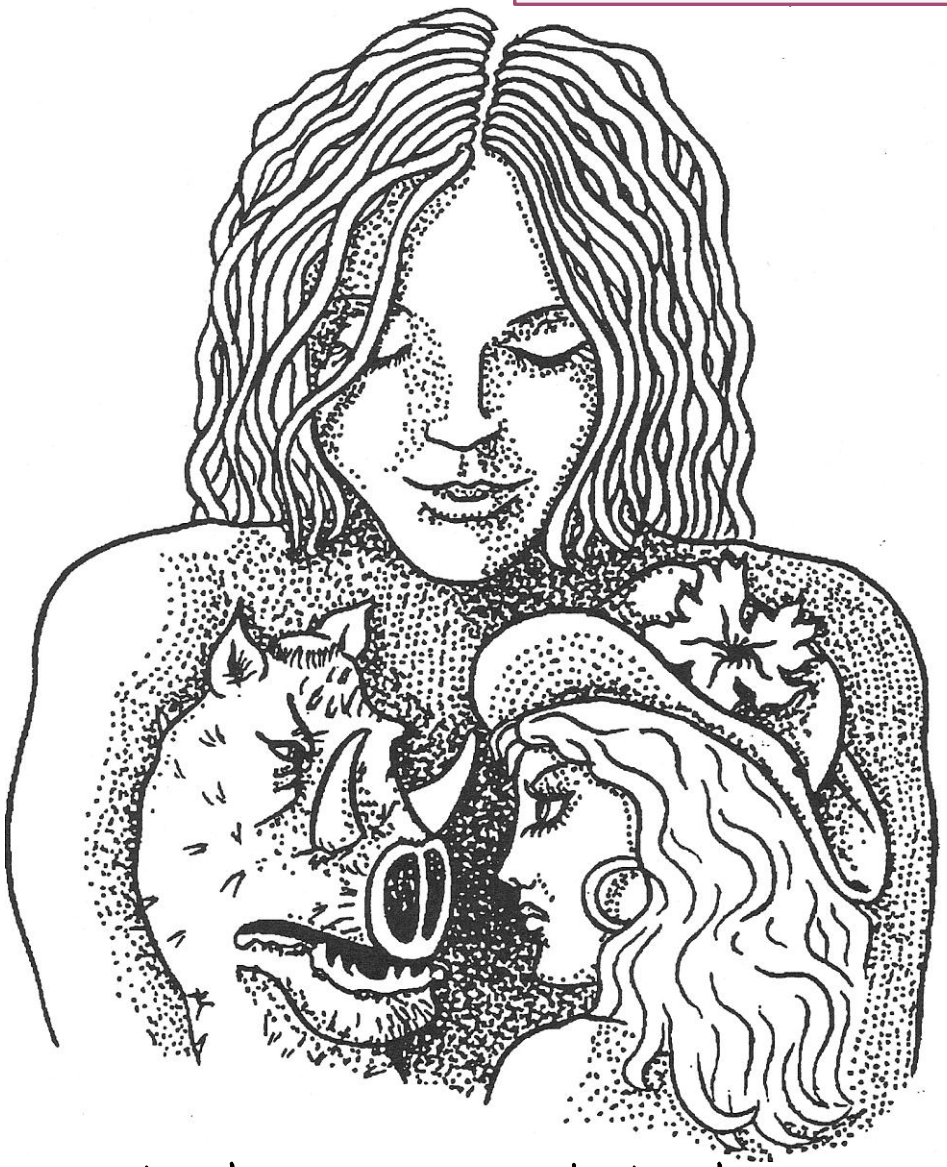
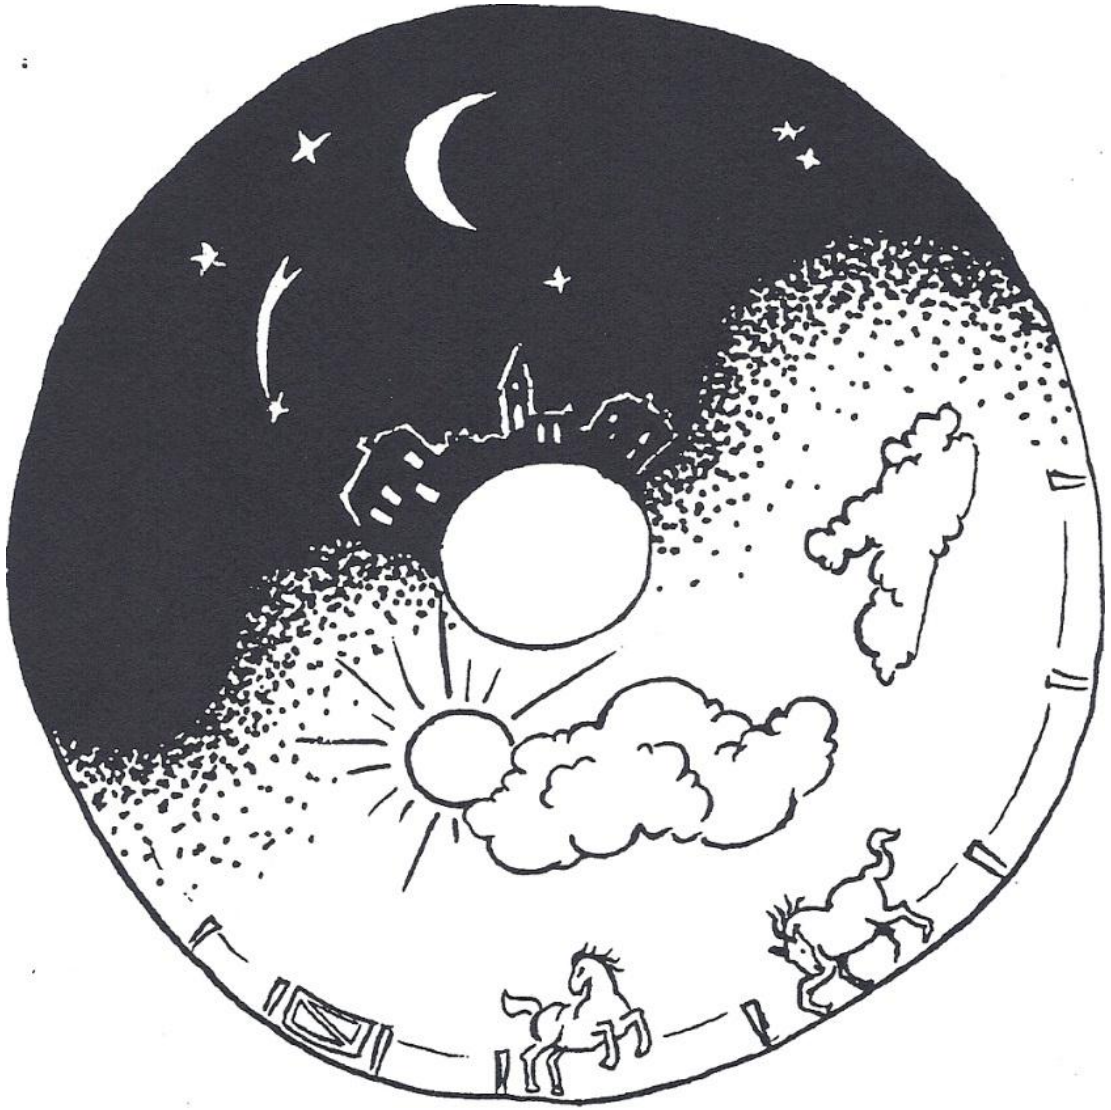
Facticity – a door to mental health & beyond

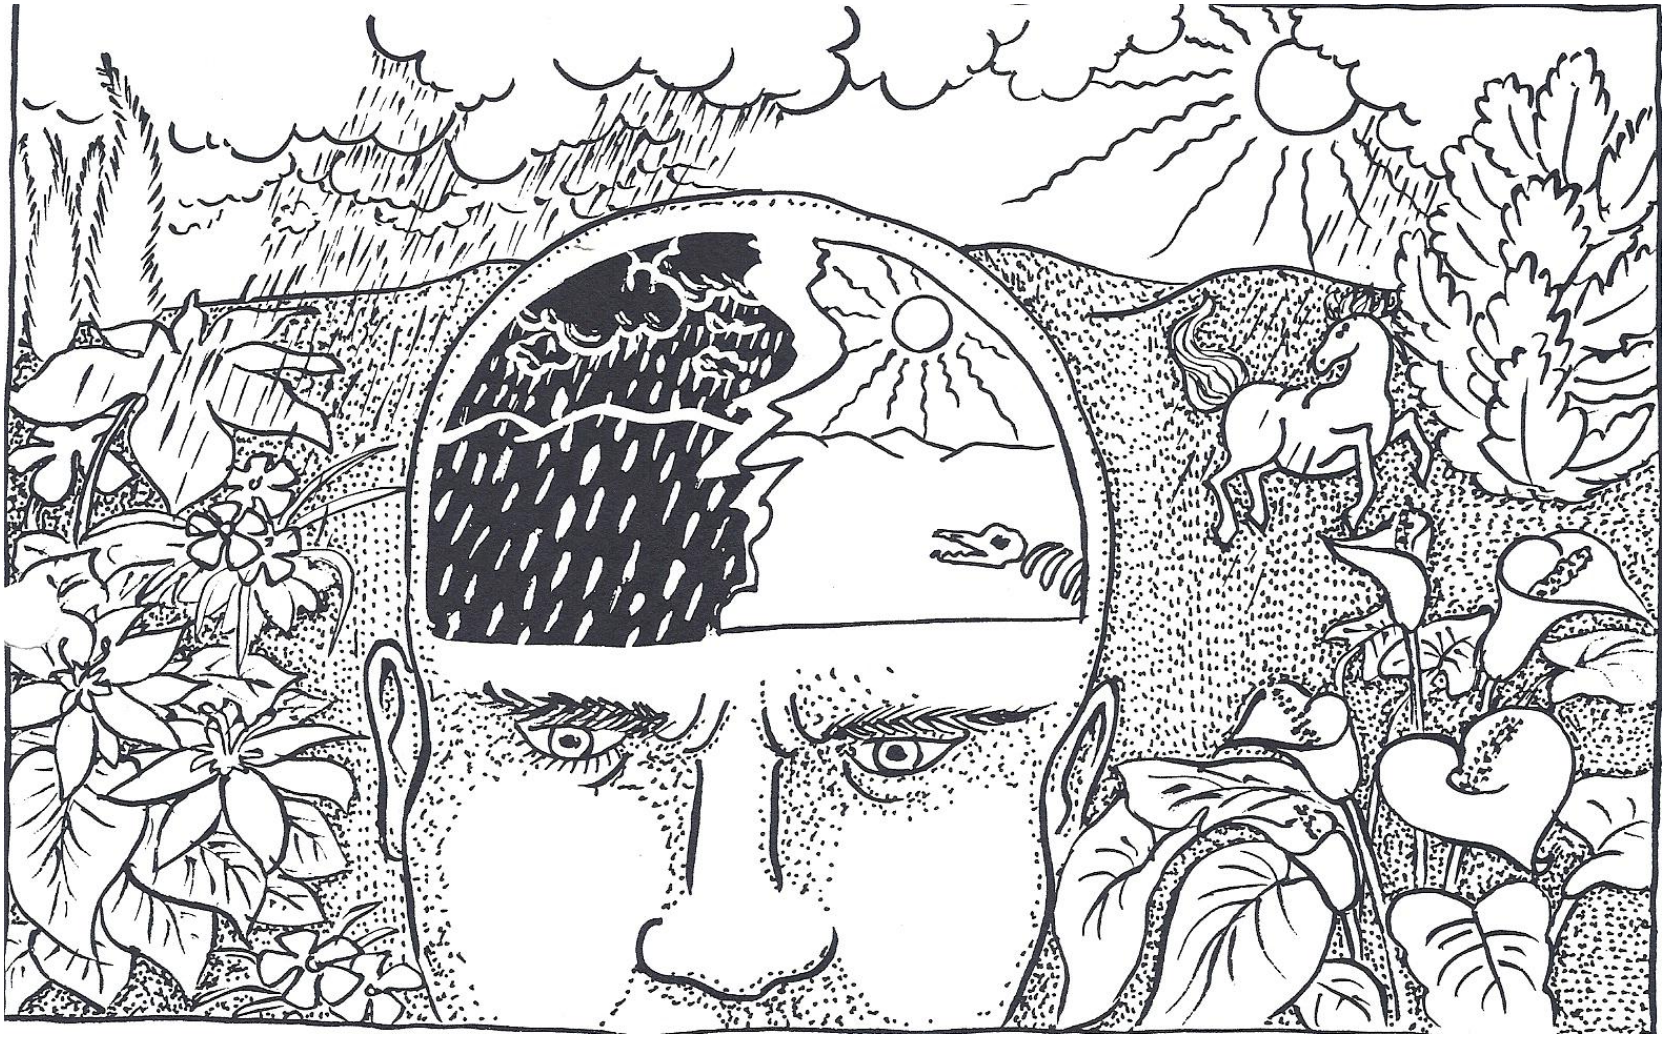




the beauty and the beast

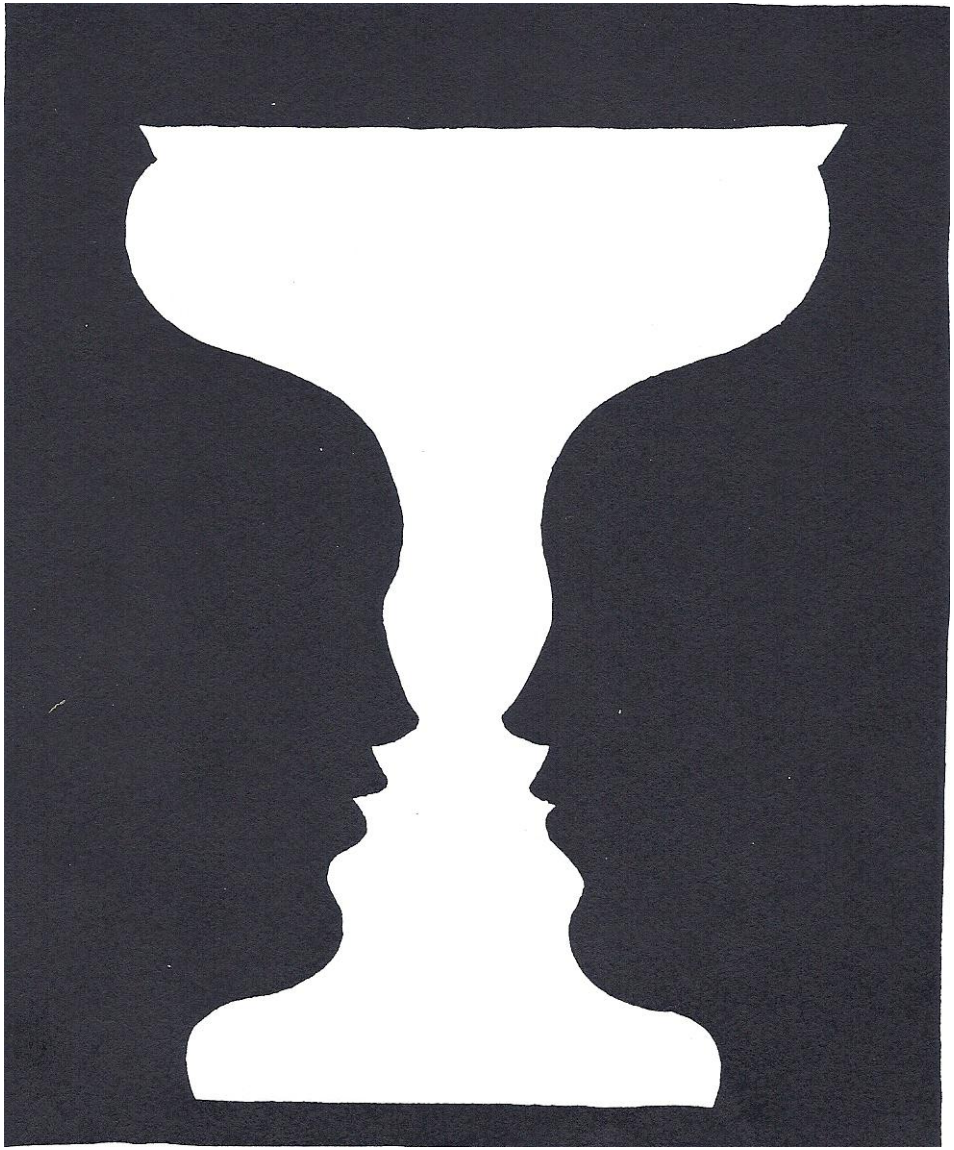


day and night

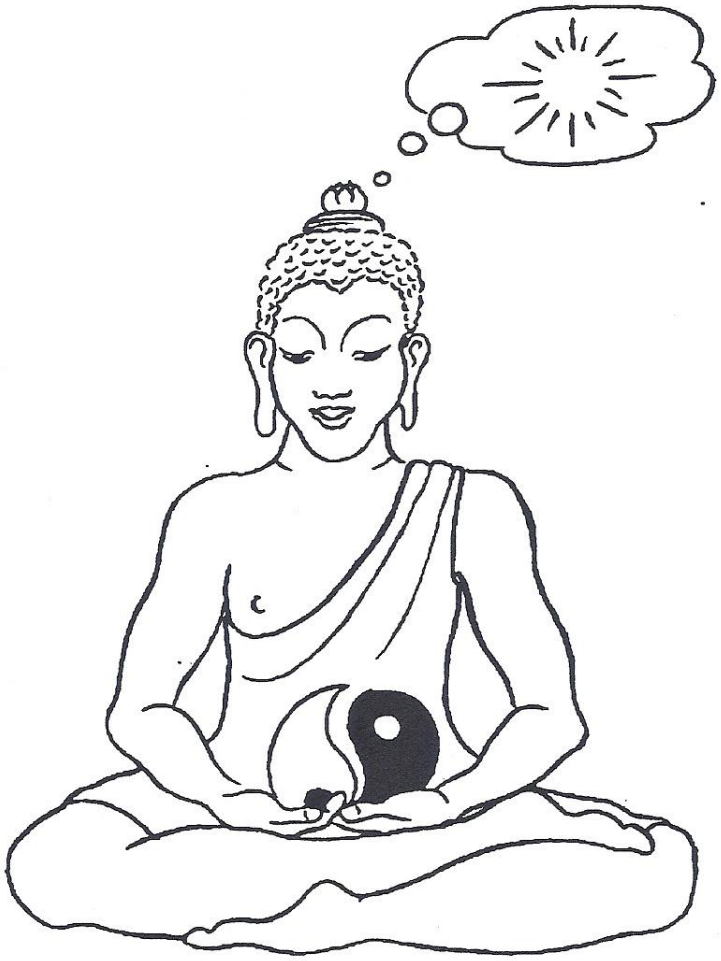


Conflict is in the mind

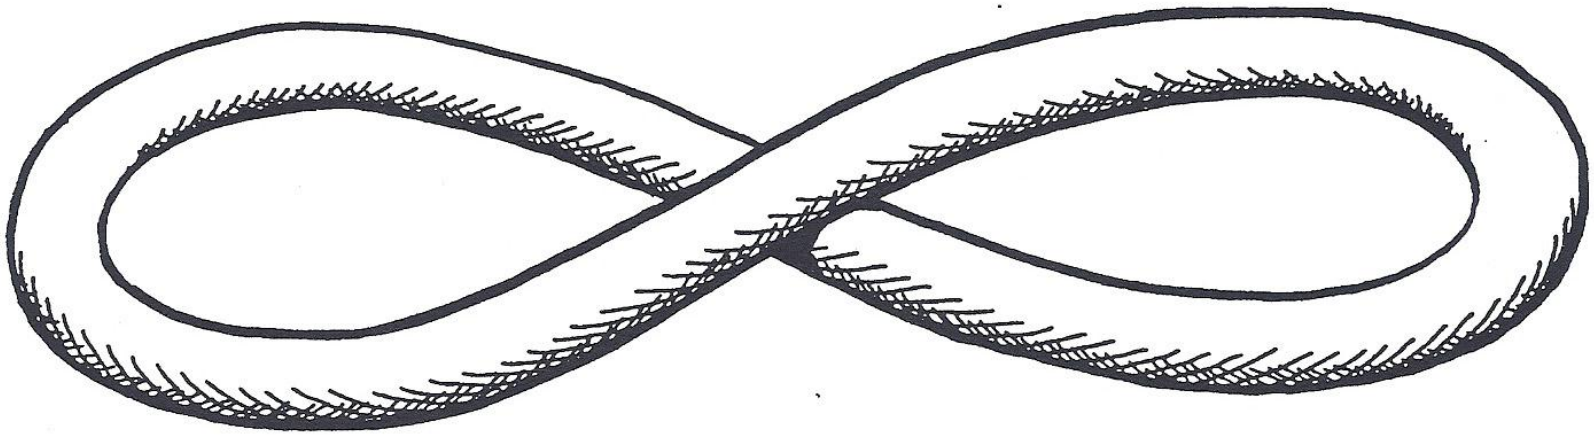
hag or beautiful girl?



Vase or faces?

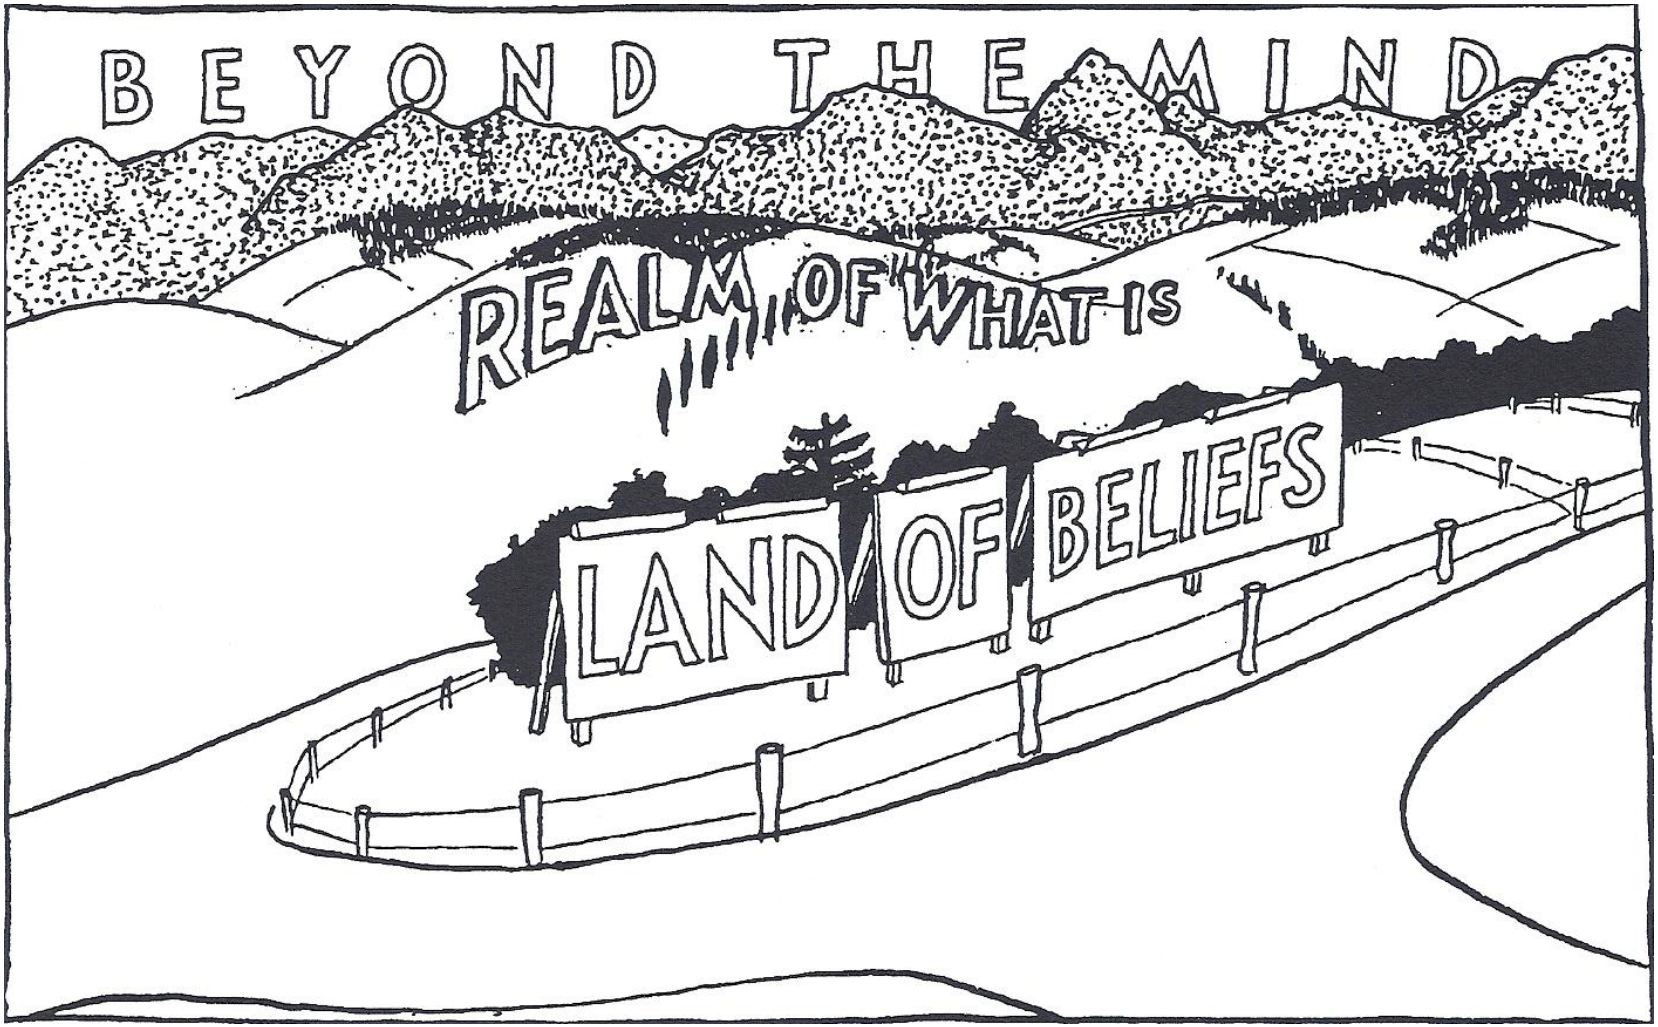


recognition of opposites as complimentary
can create a 'gap' in the mind

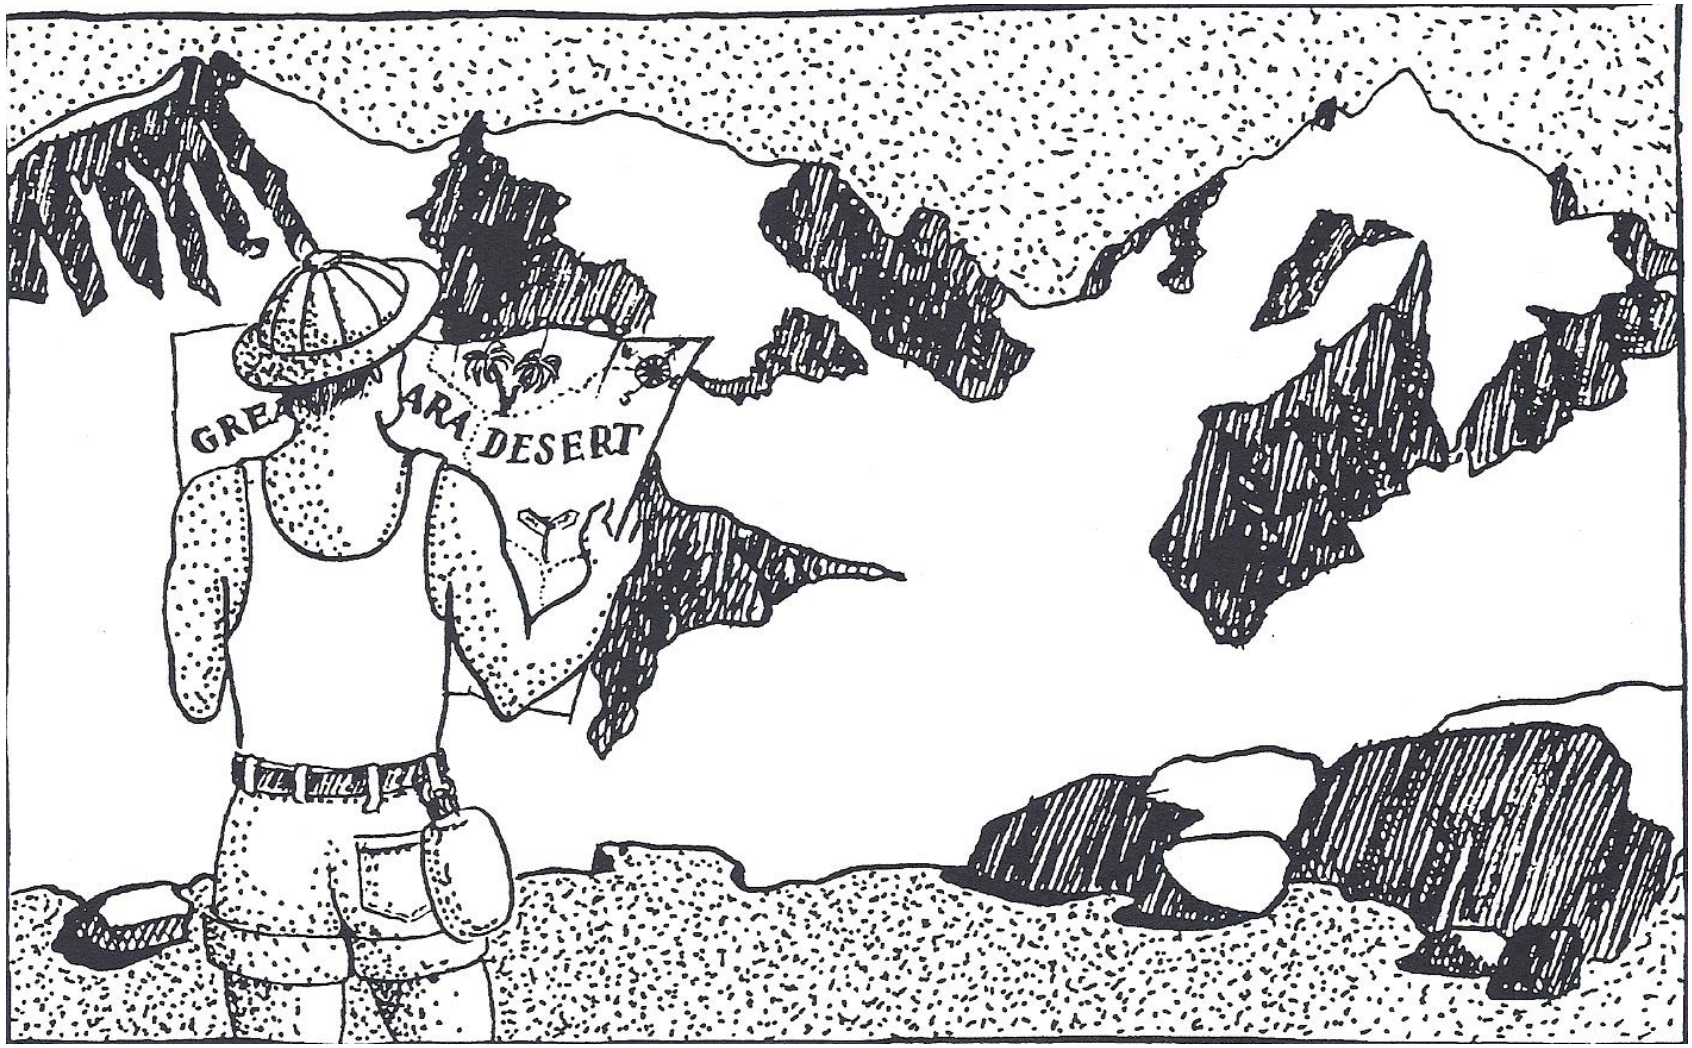


Infinity loop

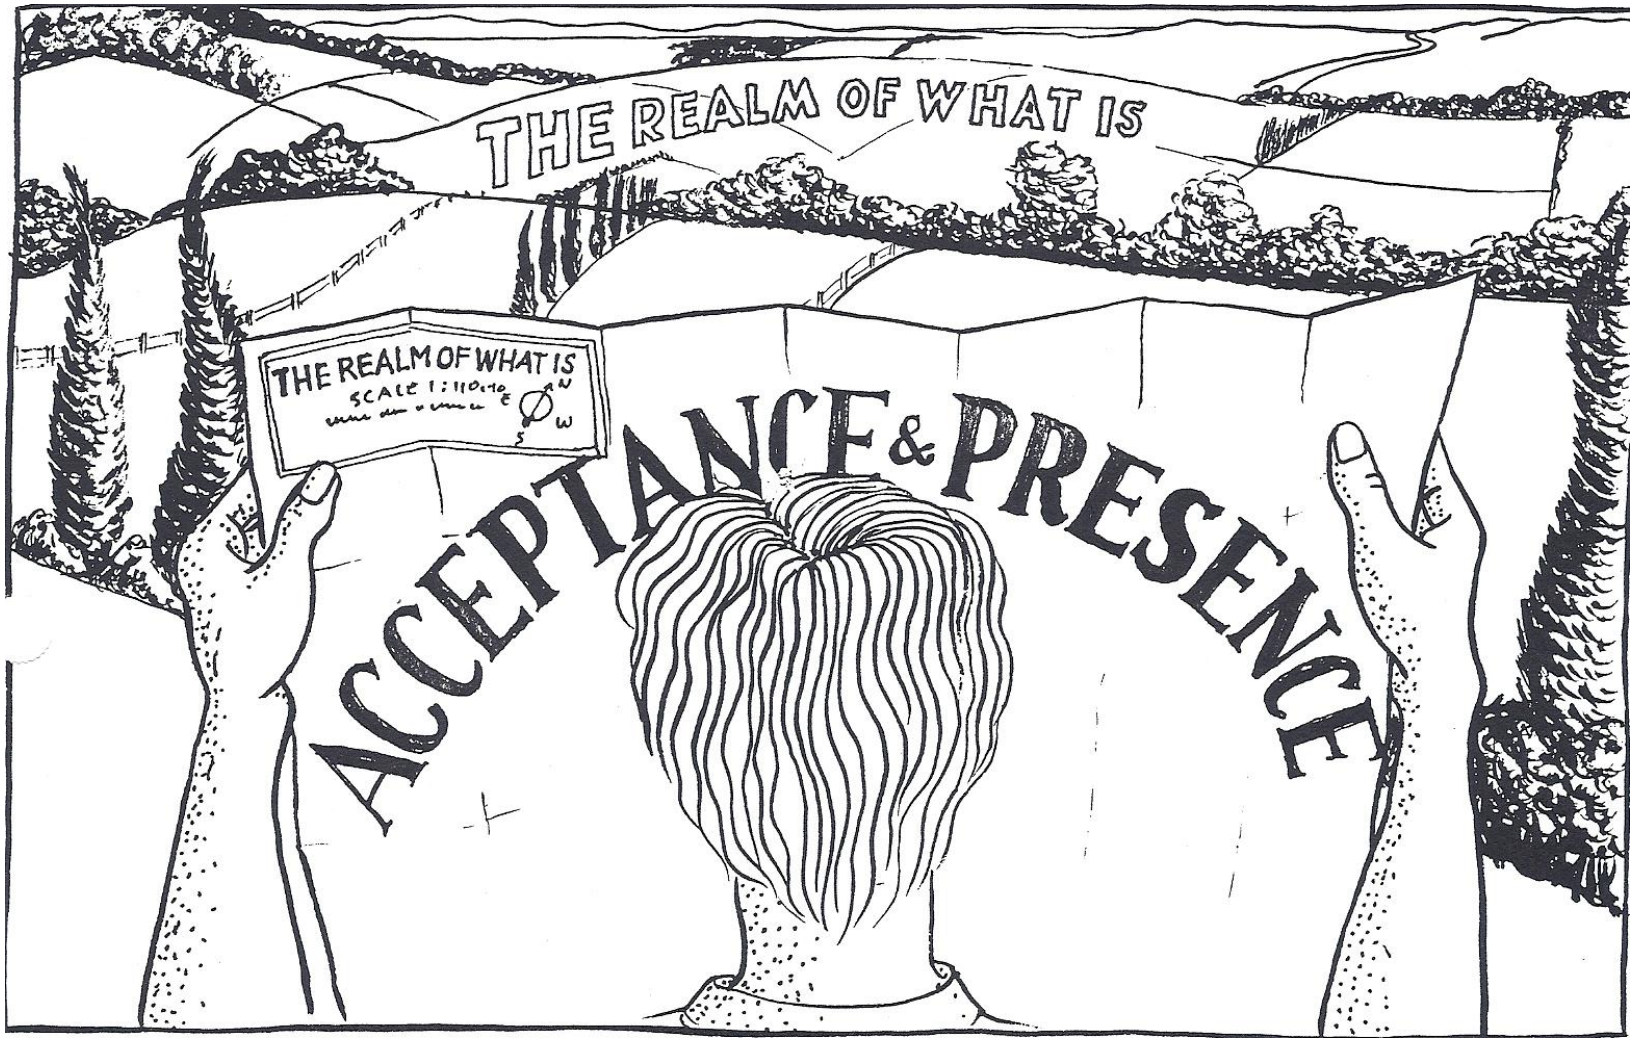
the map is not the reality



mount metaphor



traveling thru the Himalayas with a map of the desert

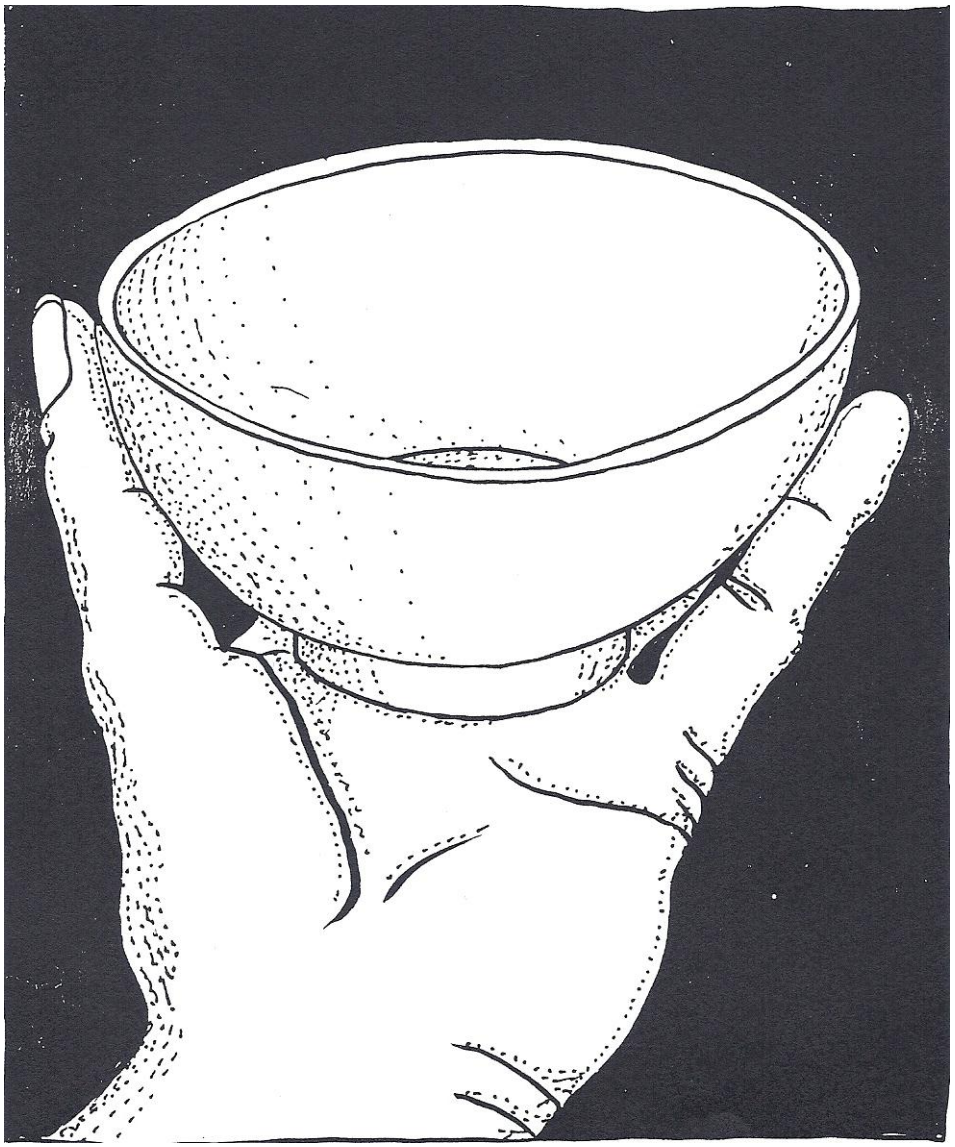


the keys of acceptance and presence

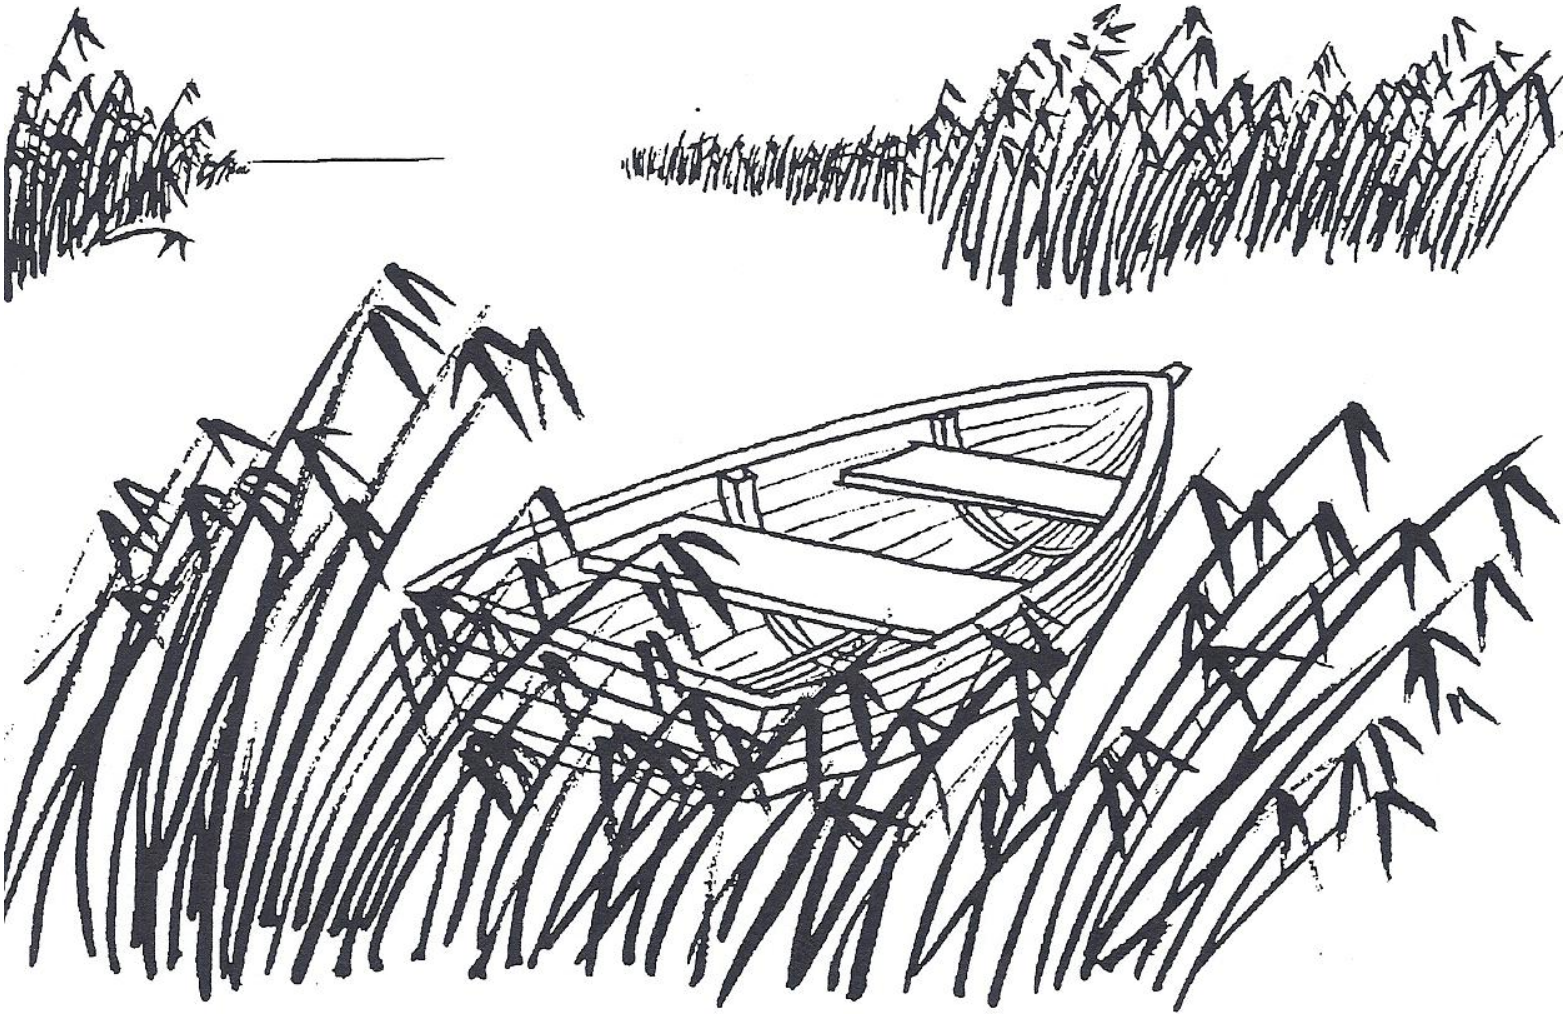
The earth is not flat

juggling does not require your head

the clinging dewdrop

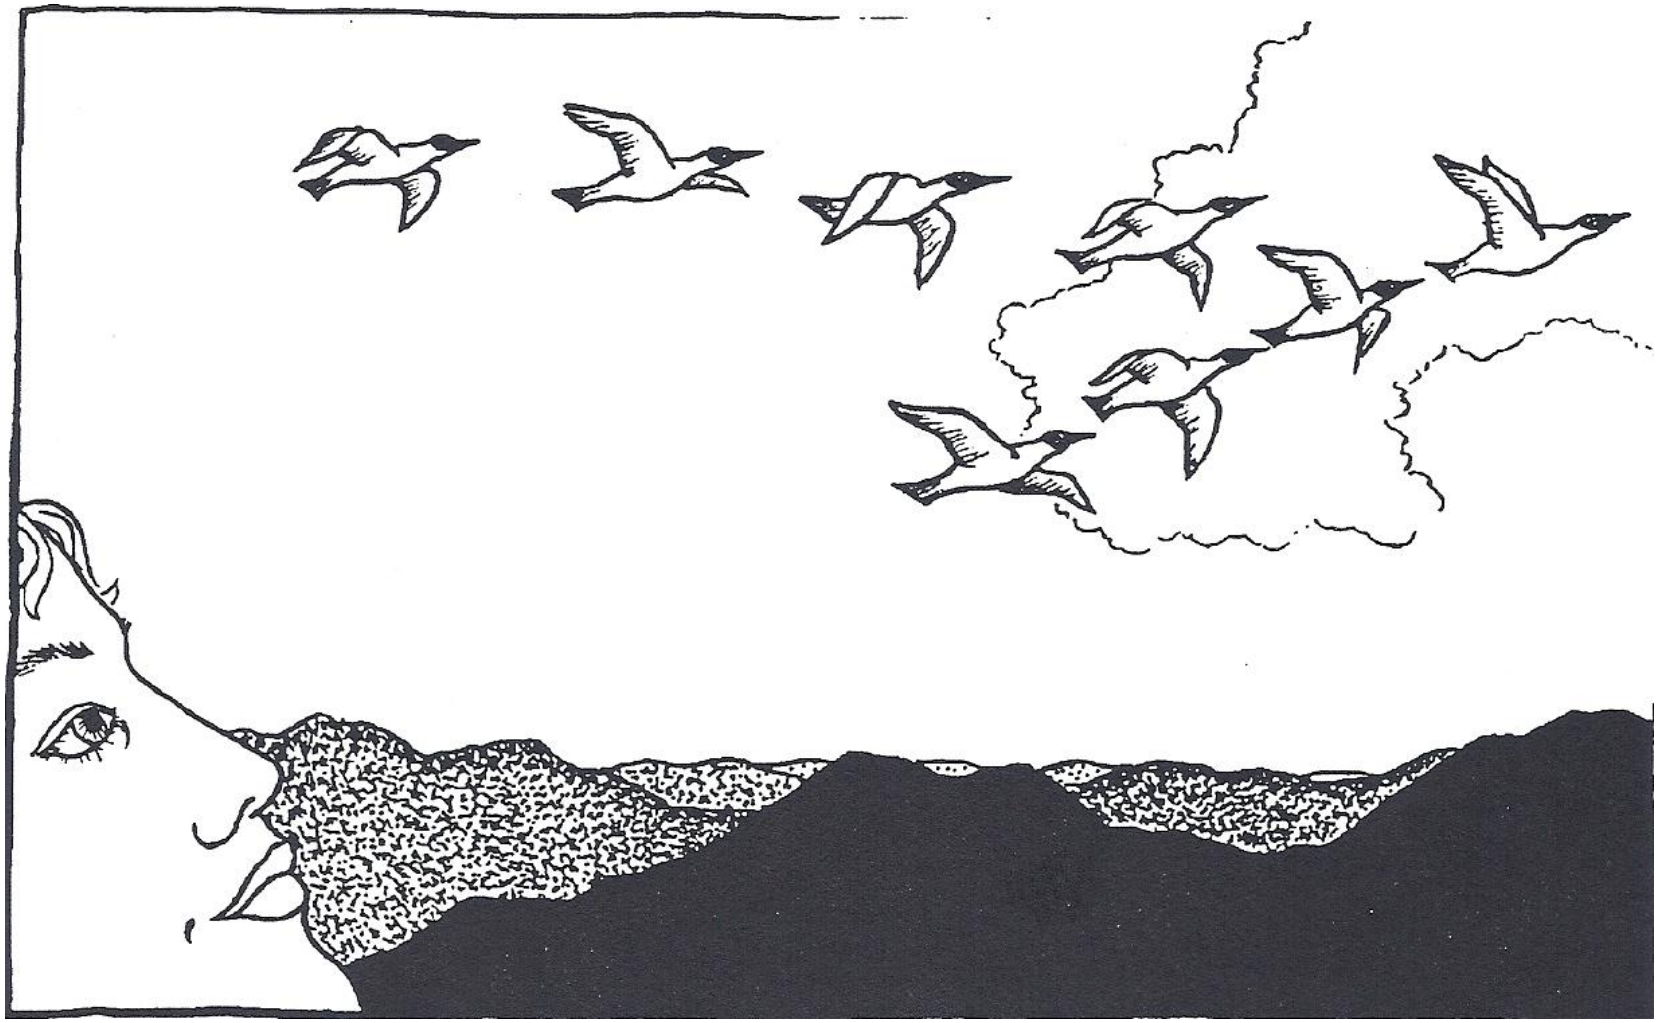


the empty bowl filled with receptivity



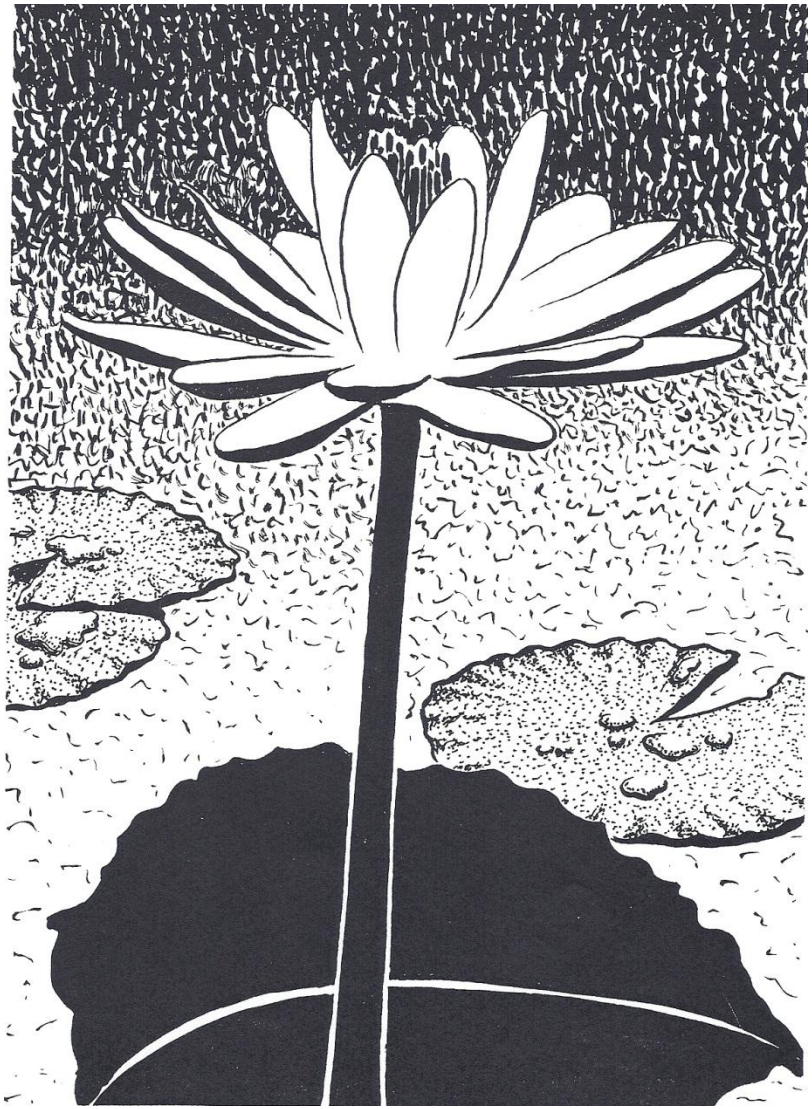
the empty boat

the mind completes the drawing



trusting the flow of life

reflections



the blossoming of happiness and inner peace
